

# Abubakr Mostafa

Cybersecurity Specialist | SOC Analyst | Threat Hunting

abubakr.s.mostafa@gmail.com | +966562271429 | linkedin.com/in/abubakr-mostafa

## SUMMARY

Threat hunting-focused SOC Analyst and active CTF player. Completed 600+ internship hours in GRC, penetration testing, and SOC Operations. Built an automated Agentic RAG threat emulation framework and completed 170+ volunteering hours. Seeking an entry-level position in Riyadh to apply these technical skills.

## EDUCATION

### Bachelor of Cybersecurity

Umm Al-Qura University

05/2022 – 05/2026

GPA : 3.89/4

## CERTIFICATES & COURSES

- **eCIRv2** — Certified Incident Responder
- **eCTHPv3** — Certified Threat Hunting Professional
- **eCDFPv2** — Certified Digital Forensics Professional
- **eCPPTv3** — Certified Professional Penetration Tester
- **eJPTv2** — Junior Penetration Tester
- **Palo Alto Unit 42 DFIR Bootcamp**

## EXPERIENCE

### Cybersecurity Analyst (Intern)

03/2025 – 07/2025

Umm Al-Qura University – Cybersecurity Department

- Completed a 600+ hour intensive cooperative training program.
- Performed threat intelligence assessments on ransomware families, delivering mitigation strategies.
- Conducted log analysis and correlation using Splunk to validate alerts and support rapid incident response.
- Investigated firewall alerts and network traffic via PCAP to identify attack vectors and anomalous activities.
- Analyzed malware samples (Static & Dynamic), extracting IOCs and producing comprehensive technical reports.
- Assisted in updating NCA ECC and DGA policies, realigning controls to support compliance with NCA ECC standards.
- Assessed external exposure across 20+ domains, reporting multiple vulnerabilities with mitigations.

## VOLUNTEERING & ACTIVITIES

### Cybersecurity Team leader

07/2024 – 11/2024

Umm Al-Qura University – Computing Club

- Led workshops and CTF challenges on digital forensics, social engineering, and threat analysis for 50+ participants.
- Participated in public cybersecurity awareness programs, delivering sessions on safe internet usage, phishing awareness, password hygiene, and online security best practices.
- Presented a technical talk at a college Techpro Talk event on Capture The Flag (CTF) competitions, explaining their importance, structure, and value in developing practical cybersecurity skills.

### Cyberseuciryt Club Co-Leader

07/2024 – 12/2024

Umm Al-Qura University

- Organized and managed student workshops covering Linux, CTFs, social engineering, reverse engineering, digital forensics, Power BI, and cybersecurity awareness.
- Managed media content for the club's X account and group communications.

### CTF Bootcamp Instructor

Umm Al-Qura University

- Led the Cryptography track for a 5-day university CTF bootcamp, developing custom challenges. **(05/2024)**
- Delivered a specialized one-day cybersecurity training camp for Mawhiba high school students. **(03/2025)**

## SKILLS

**SIEM & Hunting:** Splunk, Wazuh, Elastic, Wireshark, Alert Triage, Log Correlation, PCAP Analysis.

**Malware & Forensics:** Static/Dynamic Analysis, IDA Pro, Volatility, Autopsy, Memory/Disk Analysis, IOC Extraction.

**Systems & Scripting:** Linux, Windows, Python, Bash, PowerShell

**Soft Skills:** Analytical Thinking, Complex Problem-Solving, Technical Reporting, Team Work, Leadership.

## PROJECTS

### Automated Agentic RAG Threat Emulation Framework

01/2026 – 04/2026

Graduation Project

- Built a context-aware, intelligence-driven threat emulation pipeline leveraging Agentic AI and RAG to safely automate MITRE ATT&CK techniques via Atomic Red Team, validating detections and generating explainable reports to identify real defensive coverage gaps.
